Innovative Teaching Methods

Title of Innovation method/activity:	Chinese whisper
Faculty / Inventor:	Dr. Jyoti R Munavalli, Associate Professor
Course Name:	Management & Entrepreneur development (V Sem, ECE)
Goals / objective of method:	To make students understand importance of proper communication
Topic covered through activity:	Communication

Description of method:

Communication skills are very important and to understand it this activity was conducted. In this activity “Chinese Whisper”, all students make a chain by standing in a line with distance apart. A message is told to the first student, only once. Then this message is passed through all the students. The last student will tell it loud. Always, the input message and the output message is not the same but completely different. This activity will make them understand to concentrate on listening. Listening is also part of communication. Without understanding the message, do not pass it to the next person.

Innovative Methods like this are used to make students understand and remember concepts easily.

Benefits of method:

This activity allows them to think before act.
