## Innovative Teaching Methods

<b>Title of Innovation method/activity:</b>	Model Building
<b>Faculty / Inventor:</b>	Dr. Jyoti R Munavalli, Associate Professor
<b>Course Name:</b>	Management & Entrepreneur development (V Sem, ECE)
<b>Goals / objective of method:</b>	To make students think and act on PODC (planning, organizing, directing and controlling) with time management and team building.
<b>Topic covered through activity:</b>	PODC

### Description of method:

Activity-based learning helps students to put their understanding into action and make use of it in real-life situations. This activity “Model building” means creating a model based on the user requirements in the specified time. The students are given limited number of paper sheets along with time limit. A group of four students is made and each of them will play a role in model building based on their interest or knowledge. Together, they complete the given task. Understanding the importance of limited resources and team work.

Innovative Methods like this are used to make students do and understand.

### Benefits of method:

This activity allows them to analyse their strengths and weakness, and also work in team so that strengths of each team member will benefit the team.
