Innovative Teaching Methods

Title of Innovation method/activity:	Direct me, my Team
Faculty / Inventor:	Dr. Jyoti R Munavalli, Associate Professor
Course Name:	Management & Entrepreneur development (V Sem, ECE)
Goals / objective of method:	To make students understand importance of communication, leadership, coordination and trust
Topic covered through activity:	Coordination & Leadership

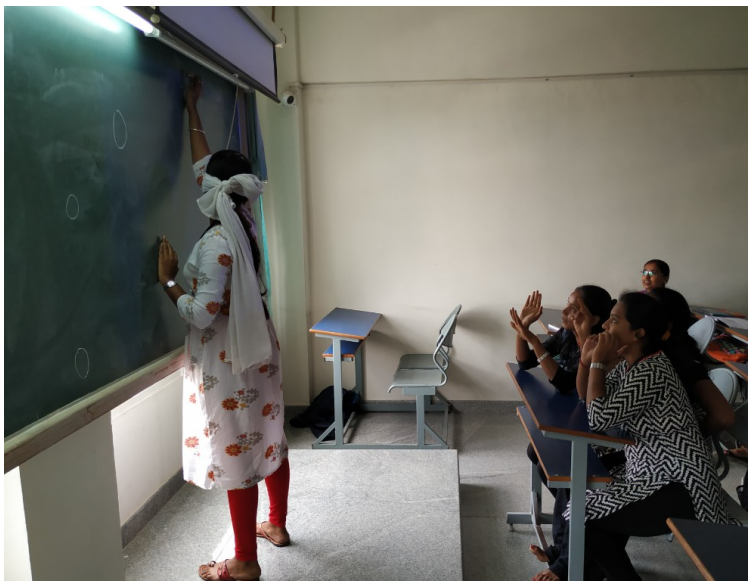

Description of method:

Coordination among different kinds of tasks and people is necessary in managing an entrepreneur. In this activity “Direct me, my Team”, four students form a group. One student is blind-folded, rest of the team member guide that student to identify the circles on the board and mark numerical values in the circle within a minute. The team with more numbers written in circle within a minute is the winner. This activity requires one of the team members to take leadership role and identify who will get blind-folded and who will guide that student. Also, in enthusiasm, students start shouting and the blind-folded student gets confused. So, a leader should see that proper coordination is established among the team members.

Innovative Methods like this are used to make students understand and remember concepts easily.

Benefits of method:

This activity allows students to develop an effective coordination.
