An Autonomous Institution under VTU

* Required

## Student Satisfaction Survey

1. College Name *

Mark only one oval.
$\square$ BNM Institute of Technology
2. Please confirm this is the first and only time you answer this survey * Mark only one oval.
$\square$ YesNo
3. Name *
$\qquad$
4. Gender *

Mark only one oval.MaleFemale
$\square$ Transgender
5. Age (in years) *
$\qquad$
6. What degree program are you pursuing now? *

Mark only one oval.
$\qquad$ Bachelor'sMaster'sDoctorate
7. Branch *

Mark only one oval.
Artificial Intelligence and Machine LearningComputer Science and Engineering

Information Science and EngineeringElectronics and Communication EngineeringElectronics and Electrical Engineering
Mechanical EngineeringMaster of Business Administration (MBA)MTech in VLSI and Embedded System DesignMTech in Computer Science and Engineering
8. USN *
9. Semester *

Mark only one oval.
IIII Semester$\vee$ SemesterVII Semester
10. What subject area are you currently pursuing? *

Mark only one oval.Professional

Instructions to fill the questionnaire

- All questions should be compulsorily attempted.
- Each question has five responses, choose the most appropriate one.
- The response to the qualitative question no. 21 is student's opportunity to give suggestions or improvements

11. 12. How much of the syllabus was covered in the class? *

Mark only one oval.85 to 100\%
$\qquad$ 70 to $84 \%$
$\square$ 55 to $69 \%$30 to $54 \%$Below 30\%
12. 2. How well did the teachers prepare for the classes? *

Mark only one oval.ThoroughlySatisfactorily
$\qquad$ PoorlyIndifferently
$\square$ Won't teach at all
13. 3. How well were the teachers able to communicate * Mark only one oval.Always effectiveSometimes effectiveJust satisfactorilyGenerally ineffectiveVery poor communication
14. 4. The teacher's approach to teaching can best be described as * Mark only one oval.ExcellentVery goodGoodFairPoor
15. 5. Fairness of the internal evaluation process by the teachers * Mark only one oval.
$\square$ Always fairUsually fairSometimes unfairUsually unfairUnfair
16. 6. Was your performance in assignments discussed with you? *

Mark only one oval.Every timeUsuallyOccasionally/SometimesRarely
$\square$ Never
17. 7. The institute takes active interest in promoting internship, student exchange, field visit opportunities for students. *

Mark only one oval.
$\square$ RegularlyOftenSometimesRarelyNever
18. 8. The teaching and mentoring process in your institution facilitates you in cognitive, social and emotional growth. *

Mark only one oval.SignificantlyVery wellModeratelyMarginallyNot at all
19. 9. The institution provides multiple opportunities to learn and grow. * Mark only one oval.
$\qquad$ Strongly agreeAgreeNeutralDisagreeStrongly disagree
20. 10. Teachers inform you about your expected competencies, course outcomes and programme outcomes. *

Mark only one oval.Every time
$\square$ UsuallyOccasionally/SometimesRarelyNever
21. 11. Your mentor does a necessary follow-up with an assigned task to you. * Mark only one oval.
$\square$ Every time
$\square$ UsuallyOccasionally/Sometimes
$\square$ RarelyI don't have a mentor
22. 12. The teachers illustrate the concepts through examples and applications. * Mark only one oval.Every timeUsuallyOccasionally/SometimesRarely
$\square$ Never
23. 13. The teachers identify your strengths and encourage you with providing right level of challenges. *

Mark only one oval.FullyReasonably
$\square$ PartiallySlightlyUnable to
24. 14. Teachers are able to identify your weaknesses and help you to overcome them. *

Mark only one oval.Every timeUsuallyOccasionally/SometimesRarelyNever
25. 15. The institution makes effort to engage students in the monitoring, review and continuous quality improvement of the teaching learning process. *

Mark only one oval.
$\square$ Strongly agreeAgreeNeutralDisagreeStrongly disagree
26. 16. The institute/ teachers use student centric methods, such as experiential learning, participative learning and problem solving methodologies for enhancing learning experiences. *

Mark only one oval.To a great extentModerateSome whatVery littleNot at all
27. 17. Teachers encourage you to participate in extracurricular activities. *

Mark only one oval.Strongly agreeAgreeNeutralDisagree
28. 18. Efforts are made by the institute/ teachers to inculcate soft skills, life skills and employability skills to make you ready for the world of work. *

Mark only one oval.
To a great extentModerateSome whatVery littleNot at all
29. 19. What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching. *

Mark only one oval.
$\square$ Above 90\%70-89\%50-69\%30-49\%Below 29\%
30. 20. The overall quality of teaching-learning process in your institute is very good. * Mark only one oval.Strongly agree
$\square$ AgreeNeutralDisagreeStrongly disagree
31. 21. Give three observation / suggestions to improve the overall teaching - learning experience in your institution. *

$2-50-69 \%$
$1-30-49 \%$
$0-$ Below $29 \%$
20. The overall quality of teaching-learning process in your institute isvery good.

## 21. Give three observation / suggestions to improve the overall teaching - learning

 experience in your institution.220 responses

None
-

## NothingNa

Try to teach without pptNo

## suggestions

NA

1) Avoid keeping same subject lecture continuously, as it kills the interest from the subject aswell as students will try to skip such continous classes.
2) Better graphics and colors arouse the interest and desire to learn among students.
3) Do not simply give lecture or teach, ask students for their doubts and other questions.

## EXCELLENT

More quizzes I had fun doing quizzes
The lab in my current semester (3rd) my seat placement is in the back and I can't see what theteacher is teaching

Live examples for the concepts can be given
..

Teachers can conduct quizzes so we can keep a track of how much we know, not for marksalone.

More interaction with students..
Teach beyond syllabus and enhance our skills.

To guide me based on my weakness and help me gain knowledge.

More hands-on learning must be included.
Extracurricular activities other than sports must also be encouraged.

Teachers should focus on the overall development of student not only on the marks .

Dress code must not be misogynistic but rather decent yet not strict rules applying only forgirls .

Interactive talk for a certain topic and able to keep more activities to learn and grow subject wise. Give presentations on the subjects. Writing the application problems for the examinationto solve.

1) Retaining good teachers who can really convey/convince the students while teaching.
2) Teachers being able to understand the level at which the students are and teaching themaccordingly must increase. Few teachers do follow this but few need to adopt this.
3) Trying to make the class interesting and getting the students to be involved in the topics byadopting better teaching skills. Teaching must not be one sided.

Teach the subject with lot of examples and connect it with the outside environment. So thestudent can understand the topic with the real world problems

1. Make the class more interactive
2. Introduce more activities and hands on activities or challenges etc
3. Keep the classes interesting by trying out new ways of teachingInclude
more extra curricular activities
1) Use better graphics and visual media to engage students well.
2) Try to reach every student and ask for their doubts.
3) Make teaching a two way interaction.
1. Using better visual aids to teach students rather than just having text.
2. Make sure that the faculty is well equipped to handle the course before assigning it to them.
3. Provide more hands-on experience to students
4. Frame the syllabus according to the current industry needs.
5. Equip the students with additional frameworks knowledge (such as Spring boot, React,Angular, etc..) based on their interest.

Practical approach to teaching required.

Provide study materials at different reading levels.Nill

No improvement required

1. To make the them give question bank for each subject 1 week before the internals andexams.
2. To make us more easy to understand and make us easy to score the exams and internals.
3. To help us to understand more things related to studies.

Explaining the theory subjects interestingly.More
time on practical sessions.

Explaining the theory subjects interestingly.more
friendly approach

I am learning from 1st semester to this current semester $\qquad$ but when i was in 1st year all
faculties were teaching very well $\qquad$ but after coming to 2 nd year only 2 or 3 faculties were teaching very well but i don't like to mention them ,,,, and the college management should stop/reduce to apply the pressure on students because most of my freinds are studying in other VTU/autonomous colleges and those colleges have also the same rank as our BNMIT college but they will always be happy with their learnings but i think, But why can't I be like them?, it's not only happened to me ,it's also happens to everyone but they don't tell $\qquad$ and few
of them are need to increase the effective teaching $\qquad$ and don't judge the ability of students on their attendance because few of them have their own problems,,,, and apart IPL if they teachor give an hands on experience in programming languages extra extra then that will be helpful to everyone like who are interested to catch the concepts . don't teach for syllabus completion as we know, u need to complete the syllabus so if $u$ teach as syllabus and if it
would be practical like company's work then it will be helpfull to everyone..I apologize ifanything is wrong in the above
1.more use of ppt (while teaching). 2.internship
based teaching, learning is great

Practical sessionsInteraction

More exposure to industry is required

1) Visual learning
2) concepts which are important and critical should be focused first and more.
3) restructure the syllabus according to the branch
4) Teachers put full efforts for all the students.
5) They always try to solve our doubts.
6) They always stand for us.
1. Practical seminars
2. Real Industrial visits to make us through with real life situations.
3. Concentrate more on Practical Knowledge rather than theoretical evaluation.

More hands on experience
1.Include more Skill development programs 2.Make
students work on Real world problems
3. Promote more Projects development

More interactive/ interesting sessions required. More field visits. Practical knowledgenecessary.

1) I would kindly request to provide notes at the beginning of the course or as soon as theteacher completes each module.
2) I would like the teachers to be friendly in nature while approached.
3) I would kindly request to keep one internal a day and not two internals a day because theseare technology related subjects and are really tough we need time to study both the subjects.

More concentration can be given to improve the self confidence of students, other than this, ifeel everything is going good with us. No other improvements needed.
-Teach at a lower pace as the concepts are completely new to us.
-More examples while teaching.Good

It would be helpful if other than the syllabus some othe skills are thought.

We need more hands on sessions in normal classes so that the concepts what they teach, willbe easier to understand as we do practically.

Teachers in lab have to be co operative when the students are dealing with new concepts inlab.

Teaching is good but needs to improve in teaching is and co

Some teachers are not very well versed in their subjects. Otherwise the learning experience isgood. They clarify the doubts.

Don't know

Current experience is great.

Hands-on teaching, Live examples with problems
1)Giving organized notes that will be helpful or examination
2)Giving more examples on complex topics

3Giving assignments such as experimental learning

Grading write up in labs. Though we are taught the programs prior in class, I think grading writeup in labs should be stopped or atleast an alternative must be put in place. Because it feels like you are constantly graded and thus you can't make any mistakes and there's not as
much learning as there would be if students are allowed to make mistakes. I think labs shouldjust be about learning without being scared of making mistakes or not getting the output.

Every thing is good

Provide more interactive workshops for more practical knowledge.No
improvement needed
1.

Overall teaching is good

To start teaching reallu instead of using ppts
To choose a one language like java or c++ and first clear it's concepts and then start DSA withthat only instead of rushing on everything and teaching dsa using c language that is old, unpopular and doesn't have much libraries and programing to be practical instead of theoretical and industry based.
Also atleast 1 mental health counselor should be present for each branch as a lot of studentsare dealing with depression

Teaching by giving an example

Understand us

More and more Good workshops must also be created for vtu batch studentsGive
question bank

Number of technical facilities can be increased.
Fairness in recognizing every student's capability can be increased.Online
/offline Quiz can be conducted module wise.

Should give question bank and make it a less stressful as some subject doesn't have previousquestion paper

More examples should be given

Pacing might be improved for some subjects
Giving more preparation time

Teachers(few) can be a little more friendly without being strict because that brings in hesitation a few times. Otherwise few teachers are super. Overall good learning experience.
teaching speed can be decreased for some subjects.

1) Use more real time examples so that the concepts can be understood more effectively.
2) Promote students to participate in extra-curricular activities or sports to refresh mindset.
3) Regular Quiz must be conducted in classroom so that each and every student can come prepared well for the concepts which thereby reduces the burden during the time of exams.

## Give Practical Application Based Assignments.

Reduce the long duration of classes which causes loss of concentration.

- Real life examples and demonstrations can be given for every topic for better understandingand enhancing knowledge of implementation
- More practical things (teaching a practical subject practically and not just theoretically)
- More [regular] workshops and hands-on sessions (maybe every month)
- Better guidance for projects
- Internship kind of work experience at college
- Better approach to problem solving - give a problem statement and ask students to givesolutions
- Less pressure on report submissionsAtc

Kindly allow us to use our laptops in the class whenever programs are told to execute duringclass and in the lab

I would suggest to improve the teaching of CO and OS subjectsTeaching
from ppt will b effective

1) Use better graphics and visual media to engage students well.
2) Try to reach every student and ask for their doubts.
3) Make teaching a two way interaction.

Give more examples and more visual studiesVery
good teaching .

ATC subject for sem 5 Is difficult to understand in class

They can slow down with the syllabus instead of rushing. It becomes hard for us to catch andunderstand the concepts if they're teaching that fast.

Very good teachingTo
make interactive
Class should be calm, not boring

A

Teaching techniques must be changed

Teach something that should be useful for a person who wants to go to specific his /her interested field.
1.To use board not projector all the time.

2:To give enough time to copy down the concepts.

Ntg

Excellent teaching.

Very god teaching

More flexible coding platforms if implemented would be better. Codetantra is very strict and it's not very convenient.

Strongly agree
Agree
Neutral
Disagree
Strongly disagree
30. Give three observation / suggestions to improve the overall teaching - learning experience in your institution.

101 responses

Nothing

No suggestions

Nothing

As of now They are teaching good only.

Good teaching

Time management, shorter college timings

Overall teachina is anod

Experential learning should be more often.Industry tools need to be adopted

Nothing just need to encourage all $>$

Excellent coaching

We need more of examples

Encouragement for the students are still needed

Need regular employability skill training programs from the 1st sem itself

More explination, slow teaching ,

Increase Darkina area and Do sports activities for students

Give easy examples while teaching!!

Very Good Learning experience in our College

Should try and give more examples related to the concept while teaching.

Poor

Time period for semester is less which loads stress.

Good teaching method outbound activities good teaching staff and extra activities in class. To improve the regarding placement activities Improving the job related programs improving the students interaction

No

Greate experience

Don't compare students with ur closeness

Rules to be formed before academic year and should be informed to all and followed by everyone thought the year

Overall is best and no need of suggestions tht i think

Quality of Education is excellent(Observation), BNMIT will focus more on the practicality than theory in terms of to make every students better(Obser)

Practical learning experience is far better than theoretical learning

Very good teaching, should take active interest in promoting Internship

More practical examples

Practically applying of learnings,

Satisfied

Teacher menten equality of every student

They already have case studies but can make it a mjor part of syllabus

The teachers are always friendly and they always look into were we are lagging in and help us in all terms. The institution provides a very good experiential learning.

I will give my learning experience a rate of 4 out of 5

Overall good but can be improved more and encourage students students in the field they are interested

NA

Everything is upto the mark.

1. Should conduct more guest lecturing.

Experiencial learning, unbiased Treatement

More examples in pratical subject and theory should be needed and the teaching and learning experience is good

Encouraging students

Ask the observed teacher to ask you questions about their teaching.

Giving more opportunities for all students, personal interaction with students,

No suggestion

It is good

All is well. Keep maintaining this in future also. We had a good lecture.

Focus more on sports events

More of interactive session

Experiential learning even in classroom environment

```
Overall it is good
Provide study materials
Teaching was good
Practical implications
1. Students should encourage all students to showcase talent. 2. Few teachers should hve complete
knowledge of subject which they lack in.
Practical implication
It is good studying at BNMIT
More examples
Include more activities
Provide study materials

## Nothing

$--$

Make it more interactive and add co curricular activities

Feedback and suggestion system and necessary procedures to implement the suggestionsFlexible attendance, good academic, flexible time table,

More dynamic time table,more hours for self study,given time to complete syllabus with steadyspeed don't rush it

All perfect

More practical knowledge, Lesser college working hours for self improvementNth

Making the sessions recorded so that the person misses the class should be able to see thatlater

None

Teachers need to get more student friendly, More motivation needed

Keep class more interactive so that everyone engages and understands the concepts ,explainswith the application ,concentrate and inform about important topics

Real world application opportunities

Easy way to understanding the students with thire experience. More application focussed, more workshops , more practicals Na

Implement more of technical teaching rather than just theoretical teaching, provide more hands-on workshop experiences in order to have a jovial yet efficient process of teaching
group discussionsNo

All the teachers are teaching weill.Can
make it more practical based All the
teachers are teaching well N/A

Give more importance to soft skills more, conduct more workshops, use technology more toteach

To check how much knowledge the student has on the topic before complicating the subjectbe a bit more laid back. help us do more activities that will help us in placements.

Need proper teaching staff.... Few are very very good, i strongly agree in that, but few aren't.....

No comments simply wasteNill

Interaction, understanding,lessen the working hours.

Use projector and ppt for better visualisation of diagrams and flow chart and for faster coursecompletion

Identifying and motivating and encouraging

1. Need more practical based learning 2.Need to encourage student's perspective of problemsolving 3.Need to include topics in syllabus that are of more importance in today's world
1) Less class hours but more efficient classes should be provided. 2) Opportunity, time andsupport should be provided towards the students personal goals.3) More experienced teachers are needed
1. Make the class more interesting 2. Provide time to focus on ourselves 3. Need more friendlyenvironment

Provide more hands on activities for better learning

More use of tools and applications while teaching, more focus on soft skills and workshops

Real world applications concept as a skill development

To improve the way they explain the concepts of the subjects.

Need more knowledgeable teachers
give real world examples of the concepts taught.

It is very good

Focus more on actual learning and let students be part of all types of tecnical and social events rather than just obsessing over attendance and marks.

Having a small conversation with students when they're performance or attendance is very. This would help a lot of students and myself specifically.
