Samsung Innovation Campus

Samsung India started its global citizenship program Samsung Innovation Campus at BNM Institute of Technology (BNMIT) in Bengaluru. The program is designed to catalyze innovation, foster collaboration and nurture the next generation of engineers in future tech domains such as Artificial Intelligence, Internet of Things, Big Data and Coding & Programming. At the classroom facility, students and faculty at BNMIT will work on advanced technology training as well as projects on domains such as Artificial Intelligence/ Machine Learning, Big Data and Coding & Programming, empowering students to grow into well-rounded professionals. Through the integration of technology, basic software skills and emerging capabilities, the program seeks to help students with necessary skills to secure relevant opportunities in the field of technology, ensuring they are equipped for the future.

Inauguration of Samsung Innovation Campus

Additionally, engineers from Samsung R&D Institute Bangalore (SRI-B) will mentor the faculty at BNMIT to bridge the industry-academia gap. Students enrolled for the program will undergo classroom and online training and work on innovative projects to solve real world problems under the guidance of SRI-B and BNMIT mentors. At BNMIT, students completed Artificial Intelligence and Coding and Programming courses under Samsung Innovation Campus.

Samsung PRISM [PReparing and Inspiring Student Minds]

Samsung PRISM stands for PReparing and Inspiring Student Minds. It is a student program offering students a chance to work on real-world projects, interact with Samsung's top technical experts and provide hands-on experience in core technology domains. As part of this program, Students and Professors will form teams. Each team will be assigned a work-let and a mentor from SRI-B. The team will be required to deliver project in a specified timeframe and earn exciting benefits.

Samsung Prism's initiatives at BNM Institute of Technology have contributed significantly to the academic and professional development of students and faculty. Through this collaboration, BNMIT students and faculty have engaged in a variety of projects across different domains. These include ventures in artificial intelligence (AI), Internet of Things (IoT), data science, software development, and cyber security. With 8 worklets already completed and 5 in progress, Samsung Prism continues to catalyze innovation across these diverse domains, nurturing talent and driving impactful technological advancements.
