Feminine Wellness

IEEE Women in Engineering Society – BNMIT WIE

26th July 2024

Time: 12:30 p.m. to 1:30 p.m.

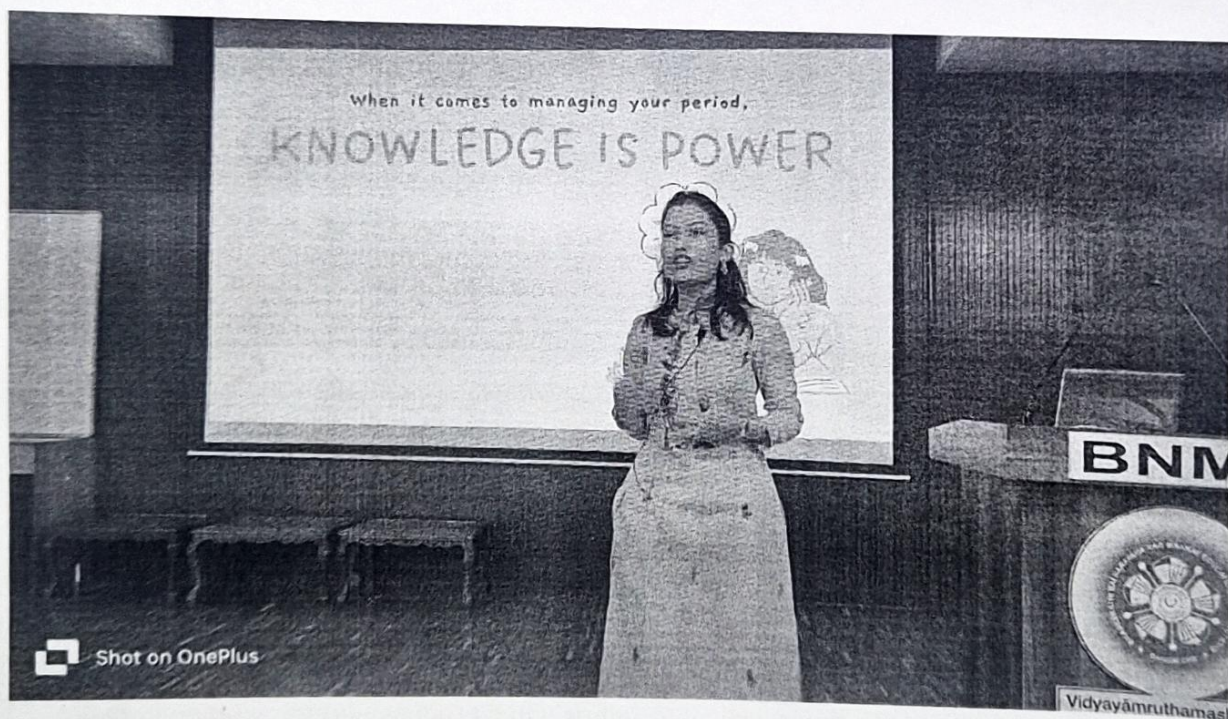

No of Attendees: 60

On 26th July 2024, the IEEE Women in Engineering (WIE) affinity group at BNM Institute of Technology organized an impactful session titled "**Sustainable Stree**". The event, aimed at raising awareness about feminine wellness, took place from 12:30 PM to 1:30 PM in the A-215 Seminar Hall. It was well-attended by students and faculty members, who engaged in thoughtful discussions on women's health and sustainable solutions for feminine care.

The session was led by **Mrs. Keerthi Jain**, the founder of Sustainable Stree, who brought her extensive knowledge and passion for promoting sustainable feminine wellness practices. Her talk beautifully encompassed the various stages of a woman's life—from puberty to menopause—and shed light on the physiological changes women undergo during these periods. Mrs. Jain emphasized the importance of using sustainable and risk-free products, urging women to make conscious choices to safeguard their health.

Organized under the mentorship of **Dr. Jyoti R. Munavalli** and **Dr. Bindu S**, faculty advisors of the IEEE WIE group, the event resonated deeply with the attendees. It not only highlighted the significance of understanding feminine wellness but also offered practical insights into sustainable products that help reduce health risks associated with conventional feminine hygiene products.

The speaker's articulation of the need for awareness among women, especially in terms of managing their wellness sustainably, made the session both informative and inspiring. It provided a safe and open platform for women to learn about and discuss the importance of prioritizing their health. The event concluded with an engaging Q&A session, where participants expressed their concerns and gained valuable knowledge to implement in their daily lives.
