BNMIT awards degrees to 576 students, 34 win gold medals

BENGALURU: As many as 576 students received their degrees and 34 were awarded gold medals during the Graduation Day of BNM Institute of Technology in Bengaluru. Devendra Malhotra, senior vice-president and chief operating officer of Technology Services Global Business Line at Wipro Ltd, urged the graduates to focus on applying their knowledge to real-life situations rather than treating education as merely a means to earn a degree. Technical knowledge, communication skills, problem-solving abilities and teamwork are essential to succeeding in an increasingly competitive world, he said. Monisha secured four gold medals, while Harshitha received two. BNM Group of Educational Institutions Chairman Narayana Rao R Maanay said engineering graduates should develop human values alongside academic knowledge. **ENS**
